ABOUT ME

Hello, my name is Rövşən Mədətov. I am from Azerbaijan and was born in Baku. I am 18 years old, and my interest in this field goes back to the last three years. Since the age of 15, I have been working on improving my skills in this area. After recently completing a high-performance training program, I am now seeking a second job. I envision myself reaching advanced levels in this field in the future. Being analytical and somewhat perfectionist, I believe these qualities help propel me forward. I am eager to learn new JavaScript frameworks and continue improving my skills.

WORK EXPERIENCE

FEBRUARY 2023 -CURRENTLY

EmarTech

FRONT-END DEVELOPER

- Web pages were created with HTML,CSS,JS and React
- Data was organized
- I improved the user experience using libraries such as Tailwind,Redux,Redux-Toolkit and SCSS
